

The proposed expansion of LPFM should not take priority over existing FM translator service. In my area, we are served by K-LOVE (91.3, 106.3, and 92.1 FM). This service is funded solely by listeners, an investment Americans across the country deem worthy of our resources. Removing our programming would be akin to eliminating PBS from television. It provides positive, encouraging music and education. It will effect the community negatively and is in the public interest to remain unchanged.

If this LPFM is given broader scope, then stations broadcasting K-LOVE (that are listener supported) should be allowed to continue with no interruption in service on the same channels. Thank you for your consideration.

Edward Alford
